A German Hollday. THAT MAY PESTIVAL AT HARLEM-CHLESEATION

OF PINISPER BY THE "SECIAL TURN-VERBER."

The fact of Pinxter—samering to the English Whithurkide—was yesterday celebrated by the German population of New York and vicinity, by a great factival at Sariem, got up under the direction of the "Jocial Furn-Verein." This society—commonly knows as the 'Turners'—is composed of five hundred members, organized for the purposes of praclising gymnastic exercises and other athletic amusements. They formerly held their factival at Hoboken, but since the row with the "Short Boys," some three years ago, they have been compelled to seek the protection of the New York authorities, and assortingly encamped, this year, on the ancient Dutch ground of Harlem. The Pleasurs Gardans bordering on the Harlem river were engaged for the occasion, and an administon fee of 25 cents was charged, to keep out loafers. This, together with several armed military companies, and one company of artillery, who were present as invited guests, had the effect to deter all rowdies from the premises, and rendered entirely unrecessary the detail of one hundred policemen sent to the ground by the Chief of Police in anticipation of a possible riot. The society, with the invited guests, assembled at Delancey stress at 8 o'clock in the morning, and marched down the Bowery to the Park, where they were reviewed in front of the City Hall by Col. Ming. They then marched up Broadway and Fourth avenue to Thirty-second street, in the following order:—One hundred Policemen detailed from the Chief's Office. Committee.

The "Turn Verein," were dressed in their usual uniform—brown lines costs and pants and Kossuth hats—and the protession, altogetier, presented a fine appearance. On arriving at Thurty-second sheet, the company took the cars, sixteen in number, chartered for the occasion, and proceeded to Harlem. They were there met by the Morrisanis "Turners," and proceeded in a body to the Harlem gardens. Large numbers of Germans from New York and vicinity were already on the ground, and they continued to arrive in crowds until as late as 3 to'clock? M., when there were not less then 7,000 in attendance. On the arrival of the procession a sainte of twanty four guos cas fired, which was followed by one gun every half hour during the festival. A temporary gymnashum was erected upon the grounds, where the New York Turners? and their sister societies performed a great variety of gymnastic feats, under the direction of Mr. Stephen. They were also entertained by a speech, in German, from Mr. Hees rich the President of the New York Society. The other exercises consisted of national songe by the "New York Sangerburg," music by the various bands, waltring, feasting, &c. In fact, it was a real genuine German free and easy holiday featival. There were women there in crows, and children without number, and all seemed to overflow with enjoyment. Lager bier in was here, too, in every conceivable form. There was leger bier in booths and lager bier in tents, lager bier in was a seen in the sightest degree intxleated. Tager neverwas a more peaceable, orderly, quiet, good tempered assembly collected together than that which drank so deeply at the fountain of lager. Our temperance societies may congratulate themselves and the cause that lager bier is

FINANCIAL AND COMMERCIAL.

Monday, May 12—6 P. M.

This has been literally blue Monday in Wall street.
The arrival of the steamship Atlantic at this port, with four days' later intelligence from Europe, of an unfavorable character financially, served to depress the stock market and induce sales at lower prices. The market was comparatively quiet, and the transactions unusually was comparatively quiet, and the transactions unusually limited. There was no stock of consequence pressing for sale, and the bears are not disposed to put out long contracts, buyer's optios, except at a handsome advance on current each prices. At the first board to-day Missouri 6's declined ½ per cent; Illinois Central bonds, ½; Cumberland, ½; Nicaragua Transit, ½; Pennsylvanta Ceal, ½; New York Central Railroad, ½; Erie, ½; Hudson Railroad, ½; Harlem, ½; Reading, 1; Michigan Central, ¾; Cleveland and Toledo. ½; Chicago and Book Island, ½. A small lot of Galena and Chicago Railroad sold at 111 per cent. Railroad bonds were well maintained. Only a few small lots were offered, and they sold at ed. Simeon Draper's regular semi-weekly sale of bon's and stocks will take place to-morrow, Tuesday, at half-past 12 o'clock, at the Merchants' Exchange.

At the second brard the market was a shade or two

better, but was not at all active. Erie closed at 56% per cent. After the board lower prices ruled and sales were made at a decline. The bank statement is more favor-able than anticipated, but the public mind has become so deeply impressed with the belief that large and steady shipments of specie must take place that it is folly to expect any immediate advance in stock securities. At this season of the year specie usually goes forward in large sums, but we do not see why it should create any apprehensions, or cause any distrust among boliers of sound, substantial stocks. The steamship Persia, from this port for Liverpool on Wednesday, will not take out over a million and a quarter of dollars. semi menthly remittance of two millions of dollars, and will, without doubt, be in before the next bank statement is made up. The receipts of spe is from the interior last week were qui'e large, and will of an exportation of specie beyond our receipts, or even up to them, but we do see strong indications of increasing stringency in the money market, and have no doubt it will continue for some weeks. With this we do not see say cause for alarm on the part of holders of good stocks, where they are paid for and pocketed. Those who have purchased beyond their means, and carry by hypotheca-tion, may find their margins gradually slipping away, and their leans suddenly called in. In that case, the only alternative is to put their stocks upon the market, and let them slile at the current price, whatever it may be. In this way heavy losses may be realized, and we have no doubt will be, as the money market contracts. The only safe parties in the stock market in these times are holders who have not bought beyond their means, and can carry under any circumstances. The bears will, without doubt, make up some of their past losses, if the present stringency continues.

it is unfavorable; politically it is unimportant and unin-teresting, and commercially about the same as brought by the previous steamer. Corsols had fluctuated con-siderably. They receded to 91% per cent, and afterwards and active. Breadstuffs were maintained, with a mederate demand. From the manufacturing districts the ac-

paled. The aggregate now is less than it has been at any time since the 1st of March last. Within the past four weeks the loans have been reduced upwards of four four weeks the loans have been reduced upwards of four millions of dollars, averaging more than a million per week. In the same time the specie reserve has increased about three quarters of a million of dollars. This shows increasing a rength. There has not been much change in the deposits. The steady and rapid contraction in loans is the principal cause of the stringency in the money market. The shipments of specie have not reduced the supply of specie in the banks, and we have no idea that it will. idea that it will.
